DETAILED ACTION

Amendment Entry

1. The amendment received July 30, 2004 has been entered. Claims 1, 4-9 and 23-28 are under consideration in this office action.

Withdrawal of Rejections

2. The written description and new matter rejections of claims 1, 4-9 and 23-28 under 35 U.S.C. 112, first paragraph have been withdrawn in view of applicants amendments and arguments.

Allowable Subject Matter

3. Claims 1,4-9 and 23-28 are allowed. The following is an examiner's statement of reasons for allowance: The prior art teaches compositions having separate components, wherein each component releases once to create the triphasic release pattern. The prior art does not teach or fairly suggest a composition comprising a homogeneous population wherein the microspheres in the population have an in vitro antigen release profile characterized by three phases. The instant composition has multiple homogenous microsphere populations that are combined to create a composition that has a triphasic release profile as defined by the specification and elaborately discussed within applicants' arguments. Each homogenous population exhibits a specific triphasic release profile. Thus claim 1 encompasses a formulation in which homogeneous

populations having the triphasic release profile can be mixed with one or more other microsphere populations and each population exhibits the triphasic release.

Thus, the claims are distinguished over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ja-Na Hines whose telephone number is 571-272-0859. The examiner can normally be reached on Monday-Thursday and alternate Fridays.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Lynette Smith can be reached on 571-272-0864. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
